Art Unit: 1751

Claims 1-10 are pending in this application.

DETAILED ACTION

Claim Objections

1. Claim 10 objected to because of the following informalities:

Claim 10 recites the term “for example”. This limitation should be deleted to make the claim in a proper form. Appropriate correction is required.

Claim Rejections - 35 USC § 102

- 2 The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Sokol et al. (US 4,182,612).

Sokol et al. (US' 612) teaches a composition for dyeing hair comprising cationic polymeric dyes (see cols. 13-14, claim 1) and benzyl urea as claimed in claim 1 (see col. 11, line 62) and hexylene glycol as organic solvent as claimed in claim 5 (see col. 12, Example VIII).

Sokol et al. (US' 612) teaches all the limitations of the claims. Hence, Sokol et al., anticipates the claims.

Allowable Subject Matter

- 3 Claims 2-4 and 6-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base

Art Unit: 1751

claim and any intervening claims. The prior art of record do not teach or disclose the limitations of these claimed.

Conclusion

The remaining references listed on from PTO-1449 have been reviewed by the examiner and are considered to be cumulative to or less material than the prior art references relied upon in the rejection above.
